

Some questions to ponder . . .

1. Why did your parish apply to the Ministry in Context program?
2. Why does the pastor want to supervise?
3. Students: Each of you should share your hopes, dreams and overarching learning goals for your Ministry in Context experience. (Consider learnings recommended by your candidacy committee, those enumerated in your psychological testing, and those learnings you yourself have identified.)
4. Starting with the supervisor, each individual present should relate his/her greatest fear as this experience begins.
5. Again starting with the supervisor, each individual present should name his/her strongest pet peeve when working with a colleague.
6. Each person present should identify how he/she feels thanked or affirmed.

We ask that one person in each group act as a scribe. At the end of the discussion period, please return your notes to the Field Education Office, and we will provide copies for each of you if you would like. You may use the back of this sheet for that purpose. Thank you.

Congregation: _____

Pastor Supervisor: _____

Lay People present: _____

Students: _____
